PROJECTS

Typing Speed Test Website ⬈ | React.Js,HTML,CSS & JavaScript   **07 2023**

- Developed an interactive and user-friendly Typing Speed Test application using modern web technologies, including React.js and the Context API. The application provides users with an engaging platform to assess and improve their typing proficiency.
- **Key points:** Responsive User Interface, Real-time Typing Analysis, Context API for State Management, Customizable Tests, Results History Tracking, Interactive User Experience .
- Live site here

MeShop E-com App ⬈ | HTML,CSS & JavaScript   **05 2023**

- Developed a shopping web application with authentication, cart and checkout feature, users can search and filter (API fetched) products, add them to the cart and then also can make dummy payment using Razorpay test mode.
- **Key points:** Api Integration, State Management, Error handling and Validation, Shopping cart and Checkout .
- Live site here

Weather App ⬈ | HTML,CSS & JavaScript   **04 2023**

- Designed and developed a dynamic Weather Forecast Web Application using HTML, CSS, and JavaScript, providing users with real-time weather updates and forecasts. The application offers a visually appealing and intuitive interface, enabling users to search for weather information in different locations and plan their activities accordingly.
- Live site here
